**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please do not change the rules that allow small Internet Service Providers access to copper phone lines. We use a small local company here that we love that offers great customer service. We know the people who work there and care about their customers and our community. We left Comcast years ago after months and months of frustrating customer service and threats to raise prices all the time.

Customers need competition in internet service providers. Local small business will suffer if the FCC changes these rules and the big companies will raise prices and provide terrible customer service.
